

# TESTIMONIAL

“We have found Komplex Care to be first class in every way, my husband is newly injured with high level spinal cord injury and we feel that if we’re unsure, we can approach them about anything at all and they check in regularly with us. I have already recommended them to fellow patients at the hospital.”

*Client's Spouse*

“They’re a breath of fresh air. I haven’t got any complaints at all, everybody’s very nice. We couldn’t cope without them.”

*Domiciliary Care Client*

“It means everything really, I’d struggle on my own. You do get to know them, they’re more like family really. The care is very good.”

*Client's Spouse*

“Komplex is good because they understand my needs, they understand my own personal circumstances, and for me that’s the most important thing. Care I think is one of the most under-rated and under-valued professions out there. I cannot tell you how much of a difference each member of my care team makes. Because without them, my life doesn’t happen. And that’s huge. Some people say ‘you’re just a carer’. You’re not ‘just a carer’, you’re enabling someone’s life.”
